

Digital Internet and Digital Premium Internet

Switch to a blazingly fast, reliable,
and secure internet with Digital
Internet and Digital Premium Internet

5G

FIBRE

Introduction

Today's businesses thrive on high bandwidths and robust security for seamless operations

Business continuity is at the core of all functions

Increased cloud adoption that requires greater bandwidths

An alarming surge in security attacks

Upgrade to Digital Internet

A fully managed broadband offering with multiple features that adds more value to your business operations and keeps it up and running.

The Digital Internet platform is powered by advanced digital management technology, enabling seamless integration of cloud-based solutions. By virtualizing networking services and enhancing service dependability, the platform facilitates optimal resource utilization.

Transform your connectivity with Digital Premium Internet

Digital Premium Internet is designed on the fundamental principles of connectivity, security, and dependability. Empower your business with the ability to select security and networking features, providing an extra layer of flexibility.

Powered by a completely virtualized digital platform, businesses can leverage a range of value-added services.
